

# **National Finance Center Customer Notification**

**Date: December 14, 2009**

**Subject: Implementation of EmpowHR Release 3 Build 2**

**Database/Customer(s) Affected: EmpowHR Customers**

**Dear Customer:**

The Release 3 Build 2 Software Change Requests (SCRs) below have been implemented in production. For a high-level summary of each SCR, please review the information in the EmpowHR bulletin 09-7, Issuance of Release Notes for EmpowHR Release 3, Build 2. The bulletin can be found at

<http://i2i.nfc.usda.gov/Publications/EMPOWHR/EmpowHR-09-7.html>

SCR	Description
80123	Clear SING Messages on Applied Documents
80369	Section 508 Compliance
90259	Person Model
90351	Approved Log On Banner
90392	Special Population Code
90547	Bi-Weekly Update of EmpowHR from BEAR file

As a result of clearing cache as part of the migration process, initial logins and pages may run slow for a day or two. This is expected after a major build until frequently used pages are cached again.

The SING messages on applied documents will be cleared tomorrow upon completion of the first return feed since SCR 80123 was implemented.

#### **Tip of the Week**

Agencies are reminded to periodically review their reports received from NFC to ensure that the requirement for the report and the number of copies remain valid.

**If you are interested in using the Person Model, please review the information and instruction for the Person Model in the above-mentioned bulletin.**

**The first run of the Bi-weekly Update (SCR 90547) will be Saturday, December 19, 2009.**

**SCR 90650, TDY Post Differential for Detailed Foreign Employees with CONUS Duty Station, will be available in the User Acceptance Test environment Tuesday, December 15, 2009 and tentatively in production on Thursday, December 17, 2009.**

**If you have any questions regarding this notification, please contact the EmpowHR Help Desk at 1-888-367-6955 or via E-mail to [nfcempowhr@usda.gov](mailto:nfcempowhr@usda.gov)**
